

I'm Bryan Norton and I am running for the Treasure Lake Board. My wife, LeAnn and I have been members of Treasure Lake for three years. We spend most of our spring, summer, and fall enjoying our wonderful resort. As a board member, my goal is to ensure our resort will be enjoyed now and for future generations. Listening to members' concerns and ideas to present to the board and management team is one way I will represent and be the voice for all. One of our own members once said to me that the real treasure of Treasure Lake is the people. This can not be said better.

Focusing on park improvements, immediate and for the long term, is of high importance to me. Including, but not limited to, the need for more 50 amp sites, concrete pads sufficient for longer coaches, and developing a plan that allows for additional pull-thru sites. I supported our recent road improvement and will continue to endorse infrastructure improvements in the future.

My experience with Cox Communication for 18 years has prepared me well for the position as Treasure Lake Board member. Through my duties were many, it should be noted I served as a fraud investigator and as a liaison between consumers and Cox's management. During my tenure, I oversaw a 40-square-mile area and developed unique skills that resulted in resolution of consumers' concerns and ideas being presented to Cox's decision makers. Specifically, I mastered mediation skills for conflict resolution between law enforcement, consumers, and Cox's managers. These skills easily transfer to what I believe to be necessary skills of a Treasure Lake Board member.

- Listen to members concerns and ideas which impact decisions made by the board.
- Work with board members in developing and implementation of plans for TL future.
- Conflict resolution of concerns for infrastructure and overall resort management.

LeAnn and I have an authentic love for our resort and I would be honored to represent our members while working toward sustaining and improving our park so that our children and grandchildren can have the same fun-filled experiences that we enjoy. I encourage and welcome members to stop by and chat- or to strike up a conversation when I am out-and-about soaking up all the wonderful things our park has to offer.
