## President's Corner

As I write this, as your current board president until December 3rd, I am thinking about two issues. One is looking back at the past year, and one is looking ahead at 2022.

First, I would like to take a look back at 2021. Before I say anything else, I would like to thank the other six people, along with myself, that comprise your board of directors. After being elected, it is the board's responsibility, along with the general manager, to oversee Kent the business affairs of Treasure Lake. That includes both financial and procedural issues. As you know, the Covid pandemic has been an exceedingly complicated issue to maneuver. Even our current election process has been affected. With all this happening, your current board of directors was able to revise our long overdue long term storage contract, put together a long-term planning committee, repair a thirty year old swimming pool, and resurface our tennis and basketball courts, along with adding extremely popular pick- We have a few RV Shows booked for 2022 so far. le ball courts.

As we look forward to the 2022 season, we do not know who will be elected to serve on your board of directors, but as I look at the nominees and the people I would like to thank Jamie and George for a great job year. A few things that the 2022 BoD will be looking at can tell they love this park. is approving the 2022 budget, revising the long-term

plan, deciding on which capital projects can be undertaken, look at revising the Rules and Regulations, along with other key issues. Please keep in mind that all the decisions that they make may not be ones with which you totally agree. Disagreeing is acceptable but please do so in a respectful way. Please know that eve-

It is very frustrating for us and for you and we have all had to stretch our patience. I want to thank everyone of our customers that have continued to support us this year thru thick and thin.
