My Name is Jerry Throesch and I've been a member of Treasure Lake for 3 years. That's not a very long time but I usually stay in the park for a couple of months at a time and really enjoy my time there. I enjoy it so much I now reside part time in Forest Park.

I retired from residential and commercial construction 4 years ago after working in this field most of my life. The last 8 years I was doing kitchen, bath, and deck builds/remodels for Lowe's along with other jobs as time allowed. I stay busy helping friends and neighbors with the skills that I've learned over the years. I've met a lot of good people at Treasure Lake and feel blessed to call them friends.

I participate regularly, when possible, in the nightly golf cart parade along with my wife and our two chihuahuas, to say we all love it is an understatement. To see the response from the kids as we drive through throwing candy gives me such a wonderful feeling.

I would really like to help make Treasure Lake be the best it can be for our future generations.
