

## 9 Day Buy-Back Policy

### Uses:

This program is designed for members who want to extend their stay at the park after completing the initial 21-day regular stay. Here's how it works:

- You start with 21 days at the regular rate of \$12 per night.
- After the 21 days, you can purchase 9 additional days at the buy-back rate of \$18 per night.
- Once the 9 buy-back days are used, you can start over with another 21-day stay at \$12 per night and repeat the cycle.
- This can continue until you reach the annual limit of 54 days using the buy-back rate of \$18 per night.
- Once the 54 buy-back days are used, you can continue staying for 21 days at \$12 per night, use extended buy-back days at \$60 per night, and repeat the cycle.

There are no restrictions due to occupancy or blackout dates, and this program applies no matter how many ownerships you have.

### Cost Summary:

- Regular stays (21 days): \$12 per night.
- Buy-back days (first 54 days): \$18 per night.
- Extended buy-back days (after 54 buy-back days are used): \$60 per night.

### Changing Sites or Phases:

You must switch sites or phases after 30 consecutive days of staying (this includes 21 regular days plus the 9-day buy-back period).

If you purchase 4 or fewer additional days, you don't need to move. After those extra days, you must leave the park.
